

### **Main Product Characteristics:**

V <sub>DSS</sub>	60V		
R <sub>DS</sub> (on)	6.5mΩ(Typ.)		
I <sub>D</sub>	80A		

TO-220 (DPAK)

Schematic Diagram

### **Features and Benefits:**

- Advanced MOSFET process technology
- Special designed for PWM, load switching and general purpose applications
- Ultra low on-resistance with low gate charge
- Fast switching and reverse body recovery
- 150°C operating temperature

## **Description:**

It utilizes the latest processing techniques to achieve the high cell density and reduces the on-resistance with high repetitive avalanche rating. These features combine to make this design an extremely efficient and reliable device for use in power switching application and a wide variety of other applications.

## **Absolute Max Rating:**

Symbol	Parameter	Max.	Units
In @ Tc = 25°C	Continuous Drain Current, Vos @ 10V ①	80	
Ірм	Pulsed Drain Current ②	320	A
P <sub>D</sub> @T <sub>C</sub> = 25°C	Power Dissipation ③	205	W
VDS	Drain-Source Voltage	60	V
Vgs	Gate-to-Source Voltage	± 20	V
Eas	Single Pulse Avalanche Energy @ L=0.5mH	206	mJ
las	Avalanche Current	28.6	Α
Тл Тэтэ	Operating Junction and Storage Temperature Range	-55 to +150	°C

## **Thermal Resistance**

Symbol	Characteristics	Тур.	Max.	Units
Rejc	Junction-to-case ③	1	0.61	°C/W

## Electrical Characteristics @TA=25°Cunless otherwise specified

Symbol	Parameter	Min.	Тур.	Max.	Units	Conditions		
V(BR)DSS	Drain-to-Source breakdown voltage	60	_	_	V	Vgs = 0V, ID = 250µA		
RDS(on)	Static Drain-to-Source on-resistance	_	6.5	8	mΩ	Vgs=10V,ID =20A		
V <sub>GS(th)</sub>	Gate threshold voltage	2	_	4	V	V <sub>DS</sub> = V <sub>GS</sub> , I <sub>D</sub> =250µA		
Ipss	Drain-to-Source leakage current	_	_	1	μA	V <sub>DS</sub> =60V,V <sub>GS</sub> = 0V		
lgss		_	_	100	n A	V <sub>GS</sub> =20V		
IGSS	Gate-to-Source forward leakage	_	_	-100	nA	V <sub>GS</sub> = -20V		
Qg	Total gate charge		70	_	nC	I <sub>D</sub> = 20A,		
Qgs	Gate-to-Source charge	_	15	_		V <sub>DS</sub> =30V,		
Qgd	Gate-to-Drain("Miller") charge	_	20	_		V <sub>G</sub> S = 10V		
td(on)	Turn-on delay time	_	16	_		\/40\/_\/20\/		
tr	Rise time	_	23	_	ns		no	Vgs=10V, Vps=30V, Rgen=3Ω
<b>t</b> d(off)	Turn-Off delay time	_	44	_				
tf	Fall time	_	13	_		ID = 30A		
Ciss	Input capacitance		3420		pF	V <sub>GS</sub> = 0V	V <sub>GS</sub> = 0V	
Coss	Output capacitance		163	_		V <sub>DS</sub> = 60V		
Crss	Reverse transfer capacitance	_	153	_		f = 1MHz		

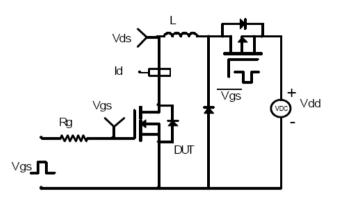

# **Source-Drain Ratings and Characteristics**

Symbol	Parameter	Min.	Тур.	Max.	Units	Conditions	
Is	Continuous Source Current (Body Diode)	_	_	80	А	MOSFET symbol showing the	
lsм	Pulsed Source Current (Body Diode)	_	_	320	А	integral reverse p-n junction diode.	
V <sub>SD</sub>	Diode Forward Voltage	_	_	1.2	V	Is=20A, Vgs=0V	
trr	Reverse Recovery Time	_	25	_	ns	la=20.4 di/dt=100.4 /up	
Qrr	Reverse Recovery Charge	_	30	_	nC	ls=20A,di/dt=100A/us

### Notes:

- ①Calculated continuous current based on maximum allowable junction temperature.
- ②Repetitive rating; pulse width limited by max. junction temperature.
- ③The power dissipation P<sub>D</sub> is based on max. junction temperature, using junction-to-case thermal resistance.

#### **ATTENTION:**

- Any and all Silikron products described or contained herein do not have specifications that can handle applications that require extremely high levels of reliability, such as life-support systems, aircraft's control systems, or other applications whose failure can be reasonably expected to result in serious physical and/or material damage. Consult with your Silikron representative nearest you before using any Silikron products described or contained herein in such applications.
- Silikron assumes no responsibility for equipment failures that result from using products at values that exceed, even momentarily, rated values (such as maximum ratings, operating condition ranges, or other parameters) listed in products specifications of any and all Silikron products described or contained herein.
- Specifications of any and all Silikron products described or contained herein stipulate the performance, characteristics, and functions of the described products in the independent state, and are not guarantees of the performance, characteristics, and functions of the described products as mounted in the customer's products or equipment. To verify symptoms and states that cannot be evaluated in an independent device, the customer should always evaluate and test devices mounted in the customer's products or equipment.
- Silikron Microelectronics (Suzhou) Co.,Ltd. strives to supply high-quality high-reliability products. However, any and all semiconductor products fail with some probability. It is possible that these probabilistic failures could give rise to accidents or events that could endanger human lives, that could give rise to smoke or fire, or that could cause damage to other property. When designing equipment, adopt safety measures so that these kinds of accidents or events cannot occur. Such measures include but are not limited to protective circuits and error prevention circuits for safe design, redundant design, and structural design.
- In the event that any or all Silikron products(including technical data, services) described or contained herein are controlled under any of applicable local export control laws and regulations, such products must not be exported without obtaining the export license from the authorities concerned in accordance with the above law.
- No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying and recording, or any information storage or retrieval system, or otherwise, without the prior written permission of Silikron Microelectronics (Suzhou) Co.,Ltd.
- Information (including circuit diagrams and circuit parameters) herein is for example only; it is not guaranteed for volume production. Silikron believes information herein is accurate and reliable, but no guarantees are made or implied regarding its use or any infringements of intellectual property rights or other rights of third parties.
- Any and all information described or contained herein are subject to change without notice due to product/technology improvement, etc. When designing equipment, refer to the "Delivery Specification" for the Silikron product that you intend to use.
